

## Stewardship Disclosure Framework for Asset Managers

*“Asset managers, with day-to-day responsibility for managing investments, are well positioned to influence a company’s long-term performance through stewardship.”*

Asset managers are asked to self-certify against the below stewardship categories by highlighting the appropriate boxes and where relevant providing a link to further relevant disclosures or information in the box below. Completed frameworks should be returned to the NAPF where they will then be made publicly available for pension funds and other potential clients and stakeholders to view at a glance the stewardship policies and activities of the responding asset manager.
